Abstract (en)

[origin: EP1533051A1] The correcting device (1) by means of a radially expanding expander head (8) and at least one correcting saddle (3), which is in synchronized operation with the expander head. By this means, it can serve as a pipe adjusting device. A rod or beam (4) is introduced into the pipe along which the correcting saddle can move. It can also be pressed outwards by a pressing device (5).
