Abstract (en)
[origin: EP1533589A1] A control unit for the flight path of a projectile, comprises a control block (3) with holders (5) for a propellant (4). Each holder has an ignition element (7) for the propellant, with at least one contact element (10,11) connected to an electronic control unit via a cable (17,18). The control block has a central cut out which contains a tubular carrier for the cable. The carrier consists of an electrically insulating material.
