Abstract (en)
[origin: WO2004026546A1] The invention relates to a method for the production of a mask (13, 45 A 47, 301) for glueing a covering on part of a vehicle, characterised in that: a) a sheet-like material (6) is placed opposite a support (2, 3, 202, 210) for said sheet-like material, b) the sheet-like material is maintained in a position of contact with a surface (19, 26) of the support of the sheet-like material, c) a mask is cut out of said sheet-like material which is maintained in a position of contact with the support for sheet-like material, using a cutting tool (7, 8) which is displaced in relation to the support and/or material and d) separation of the mask made of the sheet-like material and/or the support is carried out.
