Abstract (en)

[origin: CA2501849A1] The invention relates to 2-thio-substituted imidazole derivatives of formula (I), wherein the radicals R1, R2, R3 and m have the meanings as cited in the description. The inventive compounds comprise an immunomodulatory action and/or an action that inhibits the release of cytokines and are thus suited for treating diseases associated with a disorder of the immune system.</SDOA B>
