Abstract (en)

An hygienic covering element (1) for backs of armchairs, seats and the like is disclosed, comprising at least one covering surface (3) of the backs, which covering surface (3) is adapted to be placed onto the backs in order to provide a clean side to users of the backs, and is adapted to be removed from the backs when it is dirty in order to be cleaned or disposed of; the covering element (1) is further equipped with at least one area (9) in which it is possible to apply, print, glue or in another way attach writings, logos and other publishing or advertising material. <IMAGE>
