Abstract (en)  
[origin: EP1541109A1] The present invention relates to a mattress to be laid on a platform of an adjustable bed having a transformable bed surface. On the surface of the mattress facing the platform, a fixture that engages with the platform to secure the mattress is disposed. The fixture may secure the mattress by tightly fitting into one or more interstices of a mesh formed on a front face of the platform. <IMAGE>
