Abstract (en)

The spray gun bowl (1) has a connecting device (2) by which the bowl is attached to a bowl holder (13). The connecting device has a locking device (4). The connecting device during the attachment or after it is inseparably connected to the spray gun bowl holder. The locking device may have a lock release device and means for self-locking. The locking device may have locking elements such as locking ribs and/or locking teeth. An independent claim is included for method for spray painting in which the spray gun bowl is locked on a bowl holder.

Abstract (de)

Um die Gefahr eines unbeabsichtigten Lösens eines Spritzpistolenbechers (1) von einer Spritzpistolenbecheraufnahme (13) zu verringern, schlägt die Erfindung einen Spritzpistolenbecher (1) mit einer Anschlusseinrichtung (2) vor, mit welcher der Spritzpistolenbecher (1) an einer Spritzpistolenaufnahme (13) anordenbar ist, und die Anschlusseinrichtung (2) eine Verriegelungseinrichtung (4) aufweist. <IMAGE>
