Abstract (en)

The invention relates to an information device (4) for a fuel installation (2) for vehicles (V) provided with at least one fuel inlet for supplying fuel and a windscreen (W), which information device (4) comprises one or more information fields (24,25) that provide at least information relating to the fuel supply. The information fields (24,25) are positioned in front of and at a distance (D) from the windscreen (W) of the vehicle (V), such that a user of the fuel installation (2) can easily read the information. <IMAGE>
