Abstract (en)

[origin: EP1544365A2] The frame for a self assembly container is made from strips (11) to form a parallelepiped shape with six perpendicular faces having openings (12,12'). At least four of the faces are of the openings. The frame strips have fixings (20) for attachment and for mounting pivoting outer panels (K1-3) and-or panels fitting in the openings.
