Abstract (en)

[origin: EP1544833A1] The support has a front wall (7) with a front face that receives information and/or decorative patterns such as name and occupation of a person with the name of an enterprise. An elastic flexible leg fixes an edge of a pocket of a jacket to the front wall. A set of elastic flexible legs (3-6) provided in a rear face fixes a woven fabric web such as an edge of a cross jacket side, to the front face. An independent claim is also included for a method of fabricating a decoration and/or information support.
