Abstract (en)

[origin: WO2004022174A1] The invention relates to a golf ball dispenser. The inventive dispenser comprises an upper container which houses the golf balls and a flange which receives the balls from the container and which supplies said balls individually to a dispensing arm. Said dispensing arm, which is disposed such that it is essentially vertical in the rest position, comprises means for pivoting around a horizontal axis when a golf ball is being dispensed, said pivot means being disposed in the upper part thereof close to the above-mentioned flange.
