Abstract (en)
[origin: EP1550388A1] A modular safety structure comprises a plurality of vertical (12) and horizontal (13) tubular elements and joining elements (15) suitable for connecting the tubular elements (12, 13) to form at least one main side extension (14A), in which at least the vertical tubular elements (12) belonging to the main side extension (14A) are provided with an outer sheath (17) extending substantially for the entire length of the tubular elements. <IMAGE>
