Abstract (en)
A multifunction device (1) particularly for cleaning and ironing means, comprising a wheel-mounted folding stand (2), with which a first vertical support (22) for cleaning accessories is associated, a first pole (27) protruding upward from the stand (2), and to which an ironing board (28), provided with means for locking its position, is rotatably connected. A supporting base (44) for cleaning and/or ironing means is further rotatably and slidably connected to the first pole (27) in a portion located below the ironing board. A second pole (47) is associated telescopically with the first pole, and a second horizontal support (48) for an ironing means and at least one clothes stand are associated rotatably with the second pole.
