Abstract (en)

[origin: FR2864674A1] The system has a raised central zone (4) whose surface constitutes a general roadway for vehicles. The central zone extends horizontally on intersections (ABCD) of two traffic lanes (2, 3). Peripheral zones (5-8) are located adjacent to the central zone and have an inclined surface forming ramps connecting the central zone to the lanes. The peripheral zones extend horizontally outside the intersection.
