Abstract (en)
[origin: FR2845623A1] The atomizer has a push button cap (14) with a side nozzle (20) at the end of a straight tube (24) connected to the cap. The tube is pressed into a bore (28) in the cap, which has a length to allow selection of the insertion length of the tube, to control the projection of the nozzle. The tube has a discharge duct (25) with an end wall having an atomizing outlet opening (34).
