Abstract (en)  
[origin: EP1557368A1] The present application describes a closable container (1) having an opening which is closed by a flap (2) of the container, the flap (2) having an aperture (5) which registers with a lock unit (8) formed on a wall or side of the container, the lock unit (8) having an opening (15) for receiving the head of a breakable seal (10) which locks into the opening (15) in such a manner that it cannot be removed without breaking, the seal in its inserted position locking the flap (2) over the lock unit (8) in a tamper evident fashion, wherein the opening (15) of the lock unit (8) is arranged on one side of the lock unit (8), whereby in use the seal is inserted substantially parallel to the plane of the flap (2). <IMAGE> <IMAGE> <IMAGE>
