Abstract (en)
[origin: WO2004035095A1] System for sanitizing environments, applicable in particular for sanitizing small environments as shower cubicles (1). Sterilizing means (2) or germicidal/bactericidal means, which are substantially constituted by suitable UV lamps (2) commonly called "germicidal lamps", are applied in said environments. Said sterilizing means are provided with control means (3-4-5) which permit the activation of the lamp only when said environments are not occupied by persons and/or when the entrance door of said environments is closed.
