Abstract (en)

[origin: WO2004041633A1] The present invention relates to a method and an installation system of installing and connecting prefabricated room units to a ship or other watercraft to form several successive layers. According to the invention at least two room units (2, 3) are supported and connected in the vertical direction directly to each other so that the lower room unit (3) carries most of the weight of the upper room unit (2) and that the formed room unit group (1) is installed in a sideways direction and attached to a lower structure deck (4) of the ship or other watercraft.
