Abstract (en)

[origin: EP1559672A1] The stacking apparatus includes weights on the supports (3, 4, 5, 6), connected to the lifting table (2) by chain or cable mechanism (7, 8, 9, 10) so that the weights pull the lifting table and its load upwards on the supports. There is at least one transporting belt (23, 24) on the lifting table to cover the gap between supports.
