Abstract (en)
These are special seals made of press-drawn sections in a resinous material, having the purpose of closing a certain gap between pillar (1) of the fixed frame and pillar (2) of the door, applied to both pillar (1) of the fixed frame and pillar (2) of the door, having such a shape that they can couple like male (13) and female (16, 17) creating a tight fit where the protruding end (13, 17) of at least one of the seals (3, 4) is elastically yielding.
