Abstract (en)
[origin: WO2004090846A1] Label holder comprising a base (2) and an openable cover (1) which base and cover when closed form an intermediate space for receiving at least one label (40, 41). The base or the cover may, at its outside (2", 1'), which is opposite to the intermediate space, exhibit a combination bracket for attaching the label holder to one of at least two possible support devices (30, 30") with different geometries. The base or the cover may also exhibit compartments (8, 9) for receiving labels, which compartments exhibit entrances (8', 9') directed in opposite directions.
