Abstract (en)
[origin: WO2004039504A1] The invention concerns an element (10) for fixing a fluid product dispensing member (20), such as a pump or a valve, on a fluid product reservoir (1), said fixing element (10) comprising a deformable snap-lock part (15) designed to be interlocked on the neck (2) of the reservoir (1). The invention is characterized in that said snap-lock part (15) includes stiffening means (20) for substantially preventing deformation in the snap-locked part (15) after it has been interlocked.
