Abstract (en)
[origin: WO2004038151A1] The invention concerns a glass partition wall (1) consisting of at least two frameless lateral parts (2, 3) maintained on the ground (8) and at the ceiling (7) and of at least a frameless glass element (4) attached to the two lateral parts (2, 3) and to the ceiling (7). The invention aims at providing a wall (1) whereof the glass element (4) is fixed without fitting at the lateral parts (2, 3) and at the ceiling (7). Therefor, said glass element (4) is fixed to the lateral parts (2, 3) and to the ceiling (7) solely by friction type connection using a product (9) having permanent elasticity.
