Abstract (en)

[origin: WO2004048865A1] The subject of invention has enabled the change of the door opening direction in electronic controlled refrigerators (1) by taking out the top hinge (18) and the cable group (5, 6), when desired, the cables which are let out from the upper ceiling and are mounted to the top hinge (18) with a socket (11, 12) can be removed from its socket (11, 12) and the top hinge can be taken to the other side.
