Abstract (en)

[origin: EP1563961A1] The assembly device (10) is for positioning the valve push rod (21) on a valve shaft to which it is to be fixed. The device has a shaft (13) with bearing regions (11) and projecting regions (12). When the device is pressed onto the cylinder head, the projecting regions press the pre-fitted push rod onto the appropriate valve shaft.
