Abstract (en)
[origin: EP1564337A1] The module has tubular corner posts (6) fitting inside lead spitters of a floor. The posts are situated outside gable panels (17), and a main slope wall (18) formed of several juxtaposed panels (19) is situated outside the posts. Each post has an open trough (21) with space for housing pipes and channels, where the trough is supported against the post using an insulating lining (23).
