Abstract (en)  
[origin: WO2004049648A2] A method for transmitting information between a UE and a Node B comprising the steps of establishing a HS-DPCCH channel between the UE and the Node B, establishing a EU-DCH channel between the UE and the Node B, aligning the HS-DPCCH channel and the EU-DCH in time in the uplink per UE using a timing such that EU-DCH starts at the beginning of a CQI field or a ACK/NACK field of the HS-DPCCH channel.
