Abstract (en)

[origin: EP1566495A2] Insertion module (3) comprises a molded section (10) on its rear edge which upwardly extends from an edge region (4). Preferred Features: The section covers the rear edge of the kitchen working surface in the region of the insertion module. The section has a horizontally extending strip (15). The transition (11) between the edge region and the molded section is rounded.
