Abstract (en)

[origin: WO2004047629A1] A medical testing system and method is disclosed in which an Internet device (103, 105, 107) is used to obtain test data from a patient automatically via sensor devices (701, 703, 705, 707). The test program in the Internet device (103, 105, 107) is downloaded from a web site via the Internet (100). After the test program has obtained the test data, the test data is uploaded to the web site server (109). At the server (109), the data is processed and the processed data is downloaded via the Internet to the patient's Internet device (103, 105, 107) and/or to other Internet devices.
