Abstract (en)
[origin: EP1568962A1] The magazine has a magazine housing (1), a feeder (4), adjustably led into the magazine housing, a base (3) and a magazine spring (5), clamped to the lower surface of the magazine housing, between the base and the feeder. The base has recesses (7, 9) with a spring latch (15) with a contact surface (16) on an inner wall (17) of the magazine housing. The base has two notches on the front of the magazine which cooperate with recesses inside the weapon for engaging both together.
