Abstract (en)
[origin: US2004108760A1] A scissors lumbar support includes a hinge axle and two arms each having a forward portion and a rearward portion. The forward portions are lumbar support pads. At least one of the rearward portions of the arms are adapted to operatively engage a force applicator. Each of the arms hinge around a hinge axle upon application of force by a force applicator. At least one of the rearward portions of the arms are mountable on a seat frame.
