Abstract (en)

[origin: EP1570922A1] The support has a base frame (1) with base plate (2) with openings at the corners to receive the columns which have detent recesses (9) to lock with a locking device. The shelf base (24) and closure plate (16) have at their corners further openings through which the columns are pushed to lock with the locking device. The locking device has a plastics sleeve in which a locking bolt is guided which is spring tensioned towards the detent recesses.
