Abstract (en)  
[origin: WO2005080217A1] The invention relates to a device for storing and discharging pourable media, particularly glue, lacquer, contact adhesive, solvent, and similar. Said device comprises a storage container (10) and a discharge container (20). The discharge container is provided with an opening (22) for discharging the pourable medium while the storage container is provided with an opening (30) for transferring the pourable medium from the storage container (10) into the discharge container (20) as well as another opening (11) for filling the storage container (10) with the pourable medium.
