Abstract (en)

[origin: EP1571625A1] A gaming machine 1 includes: a symbol row display means (for example, left reel 3L, center reel 3C, right reel 3R) for displaying a plurality of symbols for causing a player to align symbols; an operation input means of a lever or a button (for example, start lever 6, left stop button 7L, center stop button 7C, right stop button 7R) operated by the player to play a game; an internal lottery means (for example, main control circuit 71) for carrying out an internal lottery of a game using a random number; an illumination means (for example, illumination light member 104) for illuminating a tray (for example, medal reception tray 16) formed on a cabinet of the gaming machine 1; and a transparent member (for example, transparent member 105) placed detachably between the illumination means 104 and the tray 16. <IMAGE>
