Abstract (en)
[origin: WO2004000048A2] A women's waistless and seamless clothing adherable underwear includes a garment pad made of a soft absorbent material, wherein the pad has double sided strips of adhesive tape with removable peel-off cover strips to attach to the inside crotch area of low slung clothing pants, such as tight pants, leotards or dungaree jeans facing upward to the skin and crotch of the wearer. The material is preferably a soft, non-woven, absorbent material. The underwear is particularly suited for women who wear tight pants, or low waist hip hugger pants, which widely reveal waist bands and seams of panty underwear, or expose underwear waist bands. The underwear is minimally intrusive and is attractive for women who like to wear jeans without underwear but who fear bacterial infection or exposure to clothing dyes or irritating stitching.
