Abstract (en)

[origin: US2006113209A1] The packaging ( 100 ) contains pouches ( 2 a , 2 b , 2 c , 2 d) which are placed head-to-tail in it and the packaging is of the flexible type with four welded sides ( 101 a , 101 b , 101 c , 101 d). The pouches can be of the doypack type or of a flat uniform or pillow pouch type in which case they are placed so as to be staggered. A plurality of such packagings can advantageously be put on a pallet with the pouches arranged flat in relation to the pallet.
