Abstract (en)

[origin: EP1574472A2] The elevator installation, with a cabin (12) for passengers or freight, has a drive (16) at the counterweight (17) and at least one cable system (14) to link the counterweight and cabin. The drive is a powered disk or roller (22) at the bottom of the counterweight, with a toothed drive belt (22b) or cogwheel transmission to a cable deflection roller (20) at the top of the counterweight.
