Abstract (en)

The anti-tamper system (1) for a door (10) with inner hinges (9) made from upper and lower components consists of flat plates (2, 3) that are fitted vertically along the hinge components and the door frame stop (6). The plates are of a rigid material such as metal, wood or plastic and cover part of the door's inner (8) and outer (9) surfaces and are made with Z-shaped folds (4, 5) that enable them to fit one inside the other when the door is closed.

Abstract (fr)

Dispositif anti-dégondage pour porte à recouvrement composé de deux parties planes (2,3) en matière rigide qui couvrent au moins une partie de la surface interne et de la surface externe de la porte, les deux parties planes (2,3) en matière rigide étant pliées (4,5) de façon à venir s'emboîter l'une dans l'autre quand la porte est en position de fermeture. <IMAGE>
