Abstract (en)  
[origin: WO2004060204A2] An absorbent article is provided having a back waist portion with two lateral ends and a front waist portion having an inner surface of nonwoven material and two lateral ends adjacent the lateral ends of the back waist portion, two nonwoven connectors connecting the adjacent lateral ends of the back waist portion and the front waist portion, hook fastener strips on one of said nonwoven connectors such that when the back waist portion and the front waist portion are wrapped around the waist of the wearer, said hook strips engage onto the nonwoven surface of the front waist portion. Each nonwoven connector may be folded n times wherein n is an integer of from 2 to 30.
