Abstract (en)  
[origin: WO2004057238A1] The invention relates to a housing (1) for an extractor hood, comprising at least one ventilator housing (2), whereby the housing (1) serves as housing for at least a part of the ventilator housing (2). The housing (1) is characterised in that at least one section of an external wall of the housing (1) is embodied by a part (22) of the ventilator housing (2). The invention further relates to a ventilator housing for a ventilator device on an extractor hood, in particular for at least one fan, characterised in that the above has at least one engaging device (221, 25, 27) for a part of a housing (11, 121) of the extractor hood.
