Abstract (en)

[origin: WO2004038578A2] The invention relates to an electrophotografic printer or copier system (10) with front and/or rear processing units (12, 16), and to a method for operating an electrophotografic printer or copier system (10) with front and/or rear processing units (12, 16). The invention also relates to a control unit (18, 20) for at least one electrophotografic printer (14) or copier. According to one aspect of the invention, a processing unit (12, 16) is connected to a printing unit (14). The processing unit (12, 16) transfers data to the printing unit (14). The printing unit (14) produces at least one graphic user interface (21, 32) with the aid of the transferred data in order to operate the printing unit (14) and the processing unit (12, 16).
