Abstract (en)

A self-supporting and stackable palletizing system or pallet (10) of bundles of tubes, in particular tubes (13) for industrial, electrical, electronic and electro-technical applications comprises a series of tubes (13) packed in self-supporting bundles (12) having a polygonal section and neatly arranged to form a package (15) of tube bundles (12) positioned on a series of supporting beams (16), the pallet (10) also comprising a series of simple beams (17) each situated above the package (15) in correspondence with each supporting beam (16), and flexible means (18) suitable for binding the beams (16, 17) and the package (15) and compressing them to form the pallet (10).
