Abstract (en)

[origin: EP1580325A1] Pipe bunker (10) for receiving concrete (24) to fill a bore hole (22) comprises a container base body with at least one inlet opening for filling the concrete and one outlet opening for discharging the concrete. In the region of the outlet opening the container base body is designed for connection to a bore hole tubing (20) and is provided with a closing device (18) for closing the outlet opening. Independent claims are also included for: (1) Device for removing a multi-part bore hole tubing from a bore hole and for filling the bore hole; and (2) Process for removing a multi-part bore hole tubing from a bore hole and for filling the bore hole.
