Abstract (en)

A connector part (10) for a two-part electric pluggable connector is designed so that it latches into an opening of a wall (not shown here) and thus can be fixed in a defined end-position relative to the wall. An independent claim is included for an electrical pluggable connector with two mutually lockable connector parts.

Abstract (de)

Ein Verbinderteil (10) eines zweiteiligen elektrischen Steckverbinders (12) ist so ausgeführt, dass es in einer Öffnung einer Wand (7) verrastbar und dabei in einer definierten Endstellung bezüglich der Wand fixierbar ist. <IMAGE>
