Abstract (en)
[origin: WO2004060112A1] The invention relates to a seating combination which comprises a table with a table top and at least one seating linked with the table. The aim of the invention is to increase the flexibility and cleanability of such a seating combination. For this purpose, the seating (10) is mounted on a floor-side frame (53) of the table (50) via a bracket (80) so as to be foldable so that the seating can be folded up in the direction of the center of the table top (51).
