Abstract (en)

[origin: WO2004061352A1] The invention relates to a fastener (26) for fixing a wiring material, in particular round cables or tubes to a support, in particular to a wall of a building or the similar. The inventive fastener (26) consists of a clip-like flexibly shapeable plastic fixing body (01) having a clip base (19) provided with a fixing element (08) arranged oppositely to the clip opening (20) in a through bore (07). The longitudinal axis of the fastener extends through said clip opening (20).
