Abstract (en)

The environmentally compatible packing material of cellulose for piece goods consists of unprocessed paper strips twisted into cords (2) which without additional aids are formed into a lattice (3). The lattice may consist at least partially of recycled paper. Carbon fibers may be interlaid in the twisted paper cords. An independent claim is included for a packing (1) made from the aforesaid packing material, whereby paper cords are woven into a lattice.

Abstract (de)

Die vorliegende Erfindung betrifft ein umweltschonendes Verpackungsmaterial für Stückgut aus Zellulose, welches aus zu Schnüren gedrehten, unbehandelten Papierstreifen besteht, welche ohne weitere Zusatzmittel zu einem Gitterwerk verarbeitet sind. Weiters betrifft sie eine aus diesem Verpackungsmaterial hergestellte Verpackung für Stückgut, insbesondere für Brennholzscheiter. <IMAGE>
