Abstract (en)
A water tap with a swivel mounted outlet spout (12) has the valve fitting (16) with an internal ratchet which is engaged by a corresponding ratchet profile (20) in the swivel mounting (14) for the outlet. The design enables the outlet to be folded flat for a compact fitting, e.g. under a sink cover in a boat or caravan. The ratchet has a sprung tag with rounded profile running over a number of ratchet grips to hold the outlet in a selected position. At least one of the ratchet parts is made of metal.

Abstract (de)
Die vorliegende Erfindung betrifft eine Wasserauslaufarmatur mit einem abklappbaren Wasserauslaufrohr, wobei das Wasserauslaufrohr über ein Verbindungselement mit einem Armaturenkörper drehbar verbunden ist. Das Verbindungselement und der Armaturenkörper sind dabei miteinander verrastend ausgebildet, wobei die Verrastung mindestens eine Raststufe aufweist. <IMAGE>
