Abstract (en)

[origin: EP1584874A1] The fixing device uses at least one S-shaped fixing clip (6) engaging the top edge of the panel radiator and a hanging arm (4) projecting from the rear of the front plate (1) adjacent its top edge, provided with openings (5) for reception of interlocking elements of the fixing clip. At least one further holding element is provided along at least one further edge of the front plate, having locking noses locating in openings in the front panel peripheral edge.
