Abstract (en)

[origin: WO2004066219A1] The invention relates to a method for transmitting data between a mobile first device (1; 1', 1), particularly a vehicle, and a data center (2; 2') that is at least temporally remote from the first device (1; 1'; 1). The transmission of the data ensues over at least one mobile first transmission device (1.1; 1.1'; 1.1"), and the transmitted data contain first data that are authenticated by cryptographic means.
